

Ozone

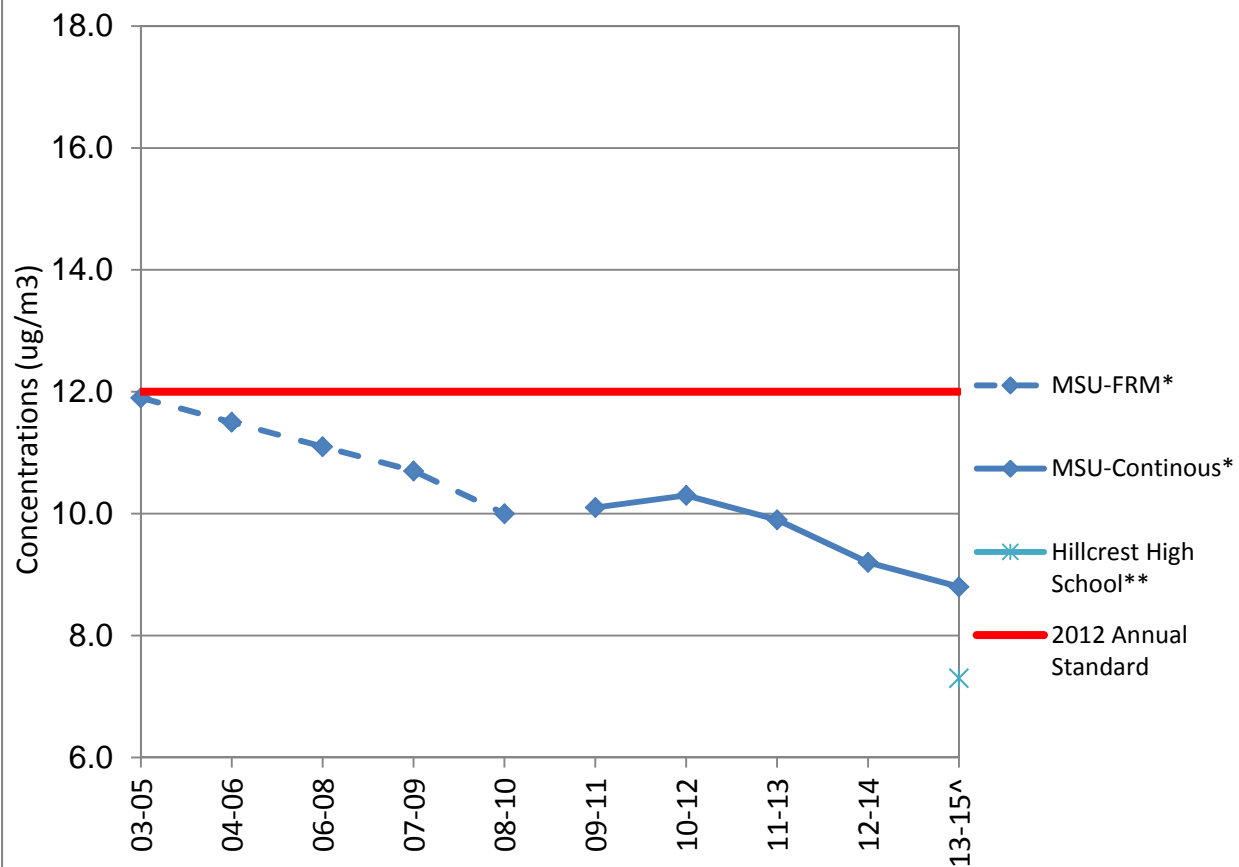

None of the ozone sites, in the Springfield area, violate the 2015 8-hour standard of 70 Parts per Billion.

PM_{2.5}

The EPA retained the 24-hour standard of 35 $\mu\text{g}/\text{m}^3$. PM_{2.5} sampling was changed from filter based to continuous sampling in 2011 at the MSU site. However, the MSU PM_{2.5} monitor was relocated to Hillcrest High School, in 2015.

2003-2015 Springfield Area, MO Annual PM2.5 Design Values

^Quality assured data through December 31, 2015

*Discontinued monitor

**2015 98th percentile (began monitoring on 04/02/2015)
